

PROJECT NARRATIVE

The proposal is to recommend to amend the Mescal Park Master Plan to allow the equestrian arena to be lighted or to recommend that the Mescal Park Master Plan not be amended.

Mescal Park is a 10 acre park located at 11015 N. 68th Place (68th Pl and Shea). This park is classified as a "neighborhood park" and "doubles" as a flood control detention basin. Approximately 8 acres of the facility is a turfed retention basin with a 125' x 200' pipe rail equestrian arena located above the basin in the southwest corner of the park. The park is surrounded by residential to the north and west, Pueblo del Norte Retirement Community to the east, and apartment complex to the south.

The park also has an equestrian decomposed granite trail and separate asphalt multi-use path that are located above the basin around the outer perimeter of the park. No other support amenities exist in this neighborhood park.
